Beschikbaar voor/Available for:

JFS was de eerste die in het Nederlandse taalgebied met puzzels de overstap maakte van papier naar internet. Onze website **www.puzzelland.com** trekt al jaren een groot publiek van enthousiaste puzzelaars. Vooral een aanhankelijk publiek. Welk ander genre website kan in de huidige zapcultuur beweren dat de helft van de bezoekers wel een **kwartier tot een half uur** lang op de site bezig blijft?

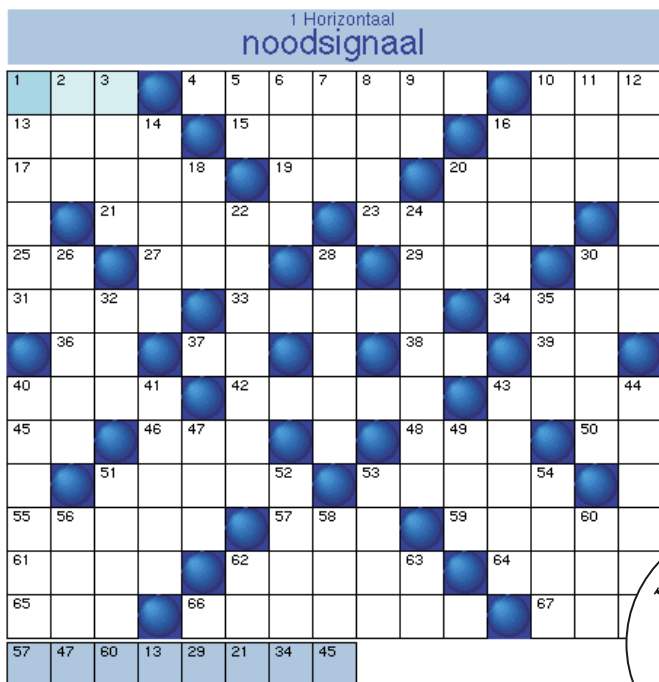

Behalve voor deze eigen website, maken we ook interactieve puzzels voor andere websites/afnemers, die daarmee een trouw publiek aan zich weten te binden. We zijn in staat om ook uw website via een automatisch publicatiesysteem dagelijks of zo vaak u maar wil van een verse puzzel te voorzien.

Naast de traditionele interactieve woordpuzzels hebben wij ook interactieve spellen in ons aanbod.

Voor alle spellen geldt dat wij in deze samenvatting slechts een greep uit ons aanbod kunnen doen, neem daarom contact met ons op om de diverse mogelijkheden te ontdekken die wij u kunnen bieden.

Woord op Woord

Woord op woord is een snel, luchtig spel dat spelenderwijs de taalkennis uitdaagt en vergroot.

In Zweden, waar het spel oorspronkelijk vandaan komt, is het al zo'n 2 miljoen keer gespeeld en recentelijk heeft dit succes ervoor gezorgd dat het spel ook beschikbaar is voor een mobiel platform.

Het doel van het spel is zoveel mogelijk en zo lang mogelijke woorden te maken, gebruik makend van de gegeven letters die omlaag vallen op het spelbord. Er kunnen zo'n 25.000 woorden gemaakt worden en er zijn jokers in het spel.

Meer **woord op woord**:

- ✓ Toplists
- ✓ Competitie tussen spelers is mogelijk
- ✓ Regelmatige updates van de content

Woord op woord biedt:

- ✓ Kennis en entertainment
- ✓ Trouwe spelers
- ✓ Spelers die lange tijd op de website blijven
- ✓ Interactief contact met bezoekers

Quizzes.

Few games are as engaging as quizzes, especially when they contain questions from the "favourite topic". Quizzes are available in different versions and are delivered complete with hundreds of questions but the Quizzes can also be adapted to different target groups and themes

CLASSIC QUIZ

The player gets four alternative answers to choose from for each question and has the choice to "drop two" of the alternatives or "ask the audience" for advice (which does not always mean that the answer is correct).

All the Quizzes have a time limit and top lists and competitions can be created around the game!

THEME QUIZ

Choose from several prepared theme quizzes or create your own unique quiz. Among the prepared theme quizzes you will find music, sports, movies, EU, health, environment and more.

The players spend more than 20 minutes on average per game!

TARGET GROUP QUIZ

Create quizzes for different target groups. Challenge the readers on their knowledge on their local town or direct the quiz towards a chosen target group.

Create a quiz for a unique target group or a unique advertiser!

Word Search.

Word Search is a new interactive game from the Bulls series "learning entertainment". The game is fast and entertaining and can be adapted to suit the local web site by adding on new words.

ABOUT THE GAME

The idea of Word Search is to find all the words before the time is up. New words can be added via a user friendly admin and therefore the game can be adapted locally or designed around a specific theme.

There is a possibility to create top lists and competitions as the game has a time limit.

Math Quiz.

Math Quiz is a new game in the Bulls series "learning entertainment" and is aimed at all target groups from the school age and up. By increasing difficulty levels, scores and the clock that is ticking, Math Quiz puts all "mathematicians" to the test where luck comes a clear second to knowledge.

ABOUT THE GAME

The starting-point is the equal sign (=) and the well known rule that both sides of this should be equal. In the beginning the equations are simple, but as the players show their skill, the difficulty level increases and the players really have to put their brains to the test. Dormant maths skills are awakened in a stimulating way.

Kakuro Puzzle.

For a long time Kakuro was the most popular logic-game in Japan, prior to Sudoku's entrance. With Kakuro, the players develop their problem solving skills. Kakuro compares to a crossword puzzle, where the letters have been replaced by digits, but Kakuro has a greater dimension than the multiplication table.

ABOUT THE GAME

There is a 6 x 6 and a 9 x 9 cell grid in the Kakuro Puzzle and both can be played in 5 difficulty levels. The goal is to use the numbers from 1 to 9 so that the sum of both the horizontal and the vertical columns equal the given amounts. The player is measured by how long they take to solve the Kakuro Puzzle.
